

Bonanza Men Hailed As Nevada Boosters

Editor Booth and Manager Daveler Doing Great Missionary Work in Los Angeles

W. W. Booth, proprietor, and J. S. Daveler, manager of the Bonanza, are at present in Los Angeles, disseminating the truth about this country, and Manhattan in particular. They have been interviewed in the Los Angeles papers, and as a result have been waited upon by scores of people, anxious for a personal interview with them. They have had audiences early and late, and the greatest interest is being manifested in this section of the country. They send the good news that the interest shown by the Los Angeles is a sure indication of results in the direction of Manhattan at least.

The Los Angeles Times, the paper having the largest circulation in California, devotes a column to the travelers from Tonopah, and reproduces a splendid half-tone cut of Mr. Booth, with the following caption:

"Nestor of southern Nevada journalism, and proprietor of The Tonopah Daily Bonanza."

Here is what the Times has to say:

That Manhattan has "made good" and proved the existence of a body of ore as extensive and as valuable as Goldfield's, is the emphatic assertion of two of Tonopah's leading citizens, W. W. Booth and J. S. Daveler, who are registered at the Hollenbeck.

Mr. Booth is the editor and Mr. Daveler the business manager of the Tonopah Bonanza. They came to Los Angeles to attend to several matters of business and particularly to tell the mining men and investors of this city what Tonopah and Manhattan have done to chase wildcats into the tall timber and protect investors in mines and stocks.

Representative citizens of both camps have formed committees, which work together, to investigate and report on all mining enterprises appealing for support or offering stock for sale. These committees go a long step farther than the Los Angeles Chamber of Mines, which investigates and reports only on application of a company and lets the wildcats run free; they take the initiative and ask for information, and when it is furnished they verify it. If a mine owner, promoter or company refuses to answer all the questions asked by the committee, all inquirers are so informed, and the prospect or company falls by inference into the wildcat class.

Correct information concerning any mine or prospect in Tonopah and Manhattan can be obtained free by any one who writes for it to the secretary of the camp's Promotion Committee.

tee. The committees do for the mining towns what the Los Angeles Chamber of Commerce does for southern California.

MANHATTAN PROSPECTS.

Manhattan has been milling its own ore. The Wolf mill started up last week, and the Lemmon mill will be ready for business in about two weeks. There are thousands of tons of ore extracted and ready for the mills. This is what Editor Booth says of the camp, in which he has mining interests.

"Manhattan has a greater mineral zone than any camp in the state of Nevada. Manhattan has greater ledges than Goldfield. Thousands of tons of ore are on the dumps awaiting treatment. There are, besides, many thousands of tons blocked out in the mines.

"The proven ore zone of Manhattan is six miles. In the Manhattan Consolidated alone there are blocked out tons of ore which will aggregate \$3,500,000. There never was a camp in the world where there were so many producing mines and so many promising prospects as there are in Manhattan.

CHASING WILDCATS.

"The men of Manhattan got together about a month ago to devise a method of getting the resources of the camp to the knowledge of the general public. The idea was to invite capital to the camp, so that it might see for itself what there was to offer, and permit it to take its pick from the properties, and to aid in their development. The Manhattan committee was formed with this idea in mind, and the committee went still further, and resolved to separate the chaff from the wheat to determine what properties were worthy to aid, and to weed out the companies which sought money from the public on the strength of properties they had no intention of working. This scheme has been pushed through and the Manhattan committee now stands ready to report to the intending investor, on any property in the camp. The committee will stand between capital and the wildcats."

BANKS ALL RIGHT.

The men from Tonopah say there is no excitement or alarm over the financial situation in the camp. The banks are believed to be all right, and depositors are disposed to give them time to deal with the situation. There is no fear that Thomas Rickey will fail to meet any obligation. Men who need money and can't borrow it are digging it out of the ground.

CLOSER TO LOS ANGELES.

"The coming of the Tonopah and Tidewater railroad," says Mr. Booth, "brings Tonopah about 100 miles nearer Los Angeles. Smith's road has made the necessary traffic arrangements with the Tonopah and Goldfield road to bring down fares and freights—the fares already, the freights in the near future. This means much to Tonopah and it means a good deal more to Los Angeles.

"The Clark line is a competitor of the Brock and Tonopah and Tidewater companies, and this is a further benefit to Los Angeles in the matter of trade. Both lines are exerting their utmost endeavors to capture the traffic, and between them, Los Angeles and Tonopah should reap much advantage. Let Los Angeles put her shoulder to the wheel, and remember that there is more than one place in this great region called southern Nevada, and that Tonopah is the center of them all."
